

Cosmopolitan Medical Communications

Great Service - Great People - Great Workplace

PHOENIX – Members of the local medical community already know that Cosmopolitan is the best service in the valley. That isn't just by chance; it is due not only to the best equipment, procedures based on industry best practices and almost 30 years of experience, but also and primarily to the efforts of the exceptional staff. Cosmopolitan takes great pride in its people, and these elements all come together to create a really great work environment. So it is no surprise that Cosmopolitan Medical Communications was awarded 4th place in the Phoenix Business Journal's annual Best Places to Work in the Valley for the small company category.

Most if not all of Cosmopolitan's employees participated in the anonymous survey process that is used to identify companies that create a positive work environment for their team members, while also making them feel like valuable components to a business. The company offers a full range of insurance benefits to its employees. Cosmopolitan doesn't stop with standard benefits either, in addition to amenities such as a luxuriously appointed quiet room with its own Internet café, free covered parking and an inviting well equipped lunch room, they also have both performance and attendance rewards and incentives. The subsidized sick child care and the completely smoke free environment both serve to further illustrate that this company really understands the relationship between employee well being and quality of service to its customers.

Being recognized as one of the Valley's Best Places to Work is a confirmation according to President Margo Soll Weiss that "taking care of team members and providing for their needs and well being allows them to focus on the needs of our clients and our client's patients." Weiss also points out that "we promote almost exclusively from within, which is easy as employees are groomed by the ongoing training as well as the team and mentoring based work environment."
